

CAST Advance Certification for AI Administrators

Customers who were certified on CAST Application Intelligence Platform (CAST AIP) have increased software quality and achieved a quantum leap advance in productivity

AIA Advance Certification

The CAST Certification recognizes demonstrated competence in leading and directing software analysis and measurement using CAST Application Intelligence Platform (CAST AIP). Certification details can be found at CAST Certification program [web page](#) (Links to an external site.). Only one attempt of the test is permitted for this certification. A pass mark of 75 - 90% is expected to get certified.

Prerequisites for the exam are:

Completion of eLearning course – AFP-201 Function Point Analysis with CAST AIP or having knowledge of the [Automated Function Points Cookbook - PMPCB](#) available at doc.castsoftware.com. The Consultant must have reached the level of an Advance AI Administrator in CAST AIP before attempting the exam.

Exam Details and Guidelines

90 minutes is permitted to complete 90 questions. After the timer starts it cannot be stopped even if you leave the test page. You can however return to an active test until that timer ends. The questions can be answered in any order by either using the Next and Previous buttons or by using the navigation scroll bar in the top right corner listing all the questions. Unanswered questions can be revisited at any time and the response to answered questions can also be changed at any time.

The format of the test answers will be one of the following types:

- Single Answer – Radio buttons (Circles) are used to indicate two or more possible answers with the choice to only select one option.
- Multiple Answers – Check boxes (squares) are used to indicate two or more possible answers with the choice to select one or more options.
- True or False Answers - Radio buttons are used to select only one option.

Exam Pattern

- CAST AIP Platform - 3 questions
- Source Code Extraction - 6 questions
- Analysis Process - 5 questions
- FP Analysis Process - 5 questions
- Analysis Configuration - 6 questions
- Transaction Calibration Center - 16 questions
- FP Basic Concept - 15 questions
- FP Automated Count - 9 questions
- Use Cases - 2 questions
- Productivity Measurement Program - 6 questions
- User and Consumers - 2 questions
- DotNet - 3 questions
- JEE - 5 questions
- Mainframe - 3 questions
- SAP/ABAP - 3 questions
- C/C++ - 1 question

How do I get started?

To register or determine which certification is for you, send an email to CAST University castu@castsoftware.com

Certification Diploma and Email Signature

Successful completion of the Certification exam is recognized with a Certification Diploma. Certified Consultants can also use the Certification logo in their email signature.
