AIA Basic Certification

The CAST Certification recognizes demonstrated competence in leading and directing software analysis and measurement using CAST Application Intelligence Platform (CAST AIP). A maximum of 2 attempts of the test over a period of two months is permitted. Thereafter the certification exam will have to be purchased again. A pass mark of 75% - 90% for this test is expected to pass the exam and obtain the diploma/certification.

The pre-requisites to take up the Basic Certification exam are:

- Successful completion of AIA-101 Getting started with CAST AIP eLearning module
- Successful completion of AIA-102 Structural Application Analysis - hands-on eLearning module and coaching session by CAST consultants
- Having knowledge of latest release of AIP (release notes available at doc.castsoftware.com)

Exam Details and Guidelines

60 minutes is permitted to complete 45 questions. After the timer starts it cannot be stopped even if you leave the test page. You can however return to an active test until that timer ends. The questions can be answered in any order by either using the Next and Previous buttons or by using the navigation scroll bar in the top right corner listing all the questions. Unanswered questions can be revisited at any time and the response to answered questions can also be changed at any time.

The format of the test answers will be one of the following types:

- Single Answer – Radio buttons (circles) are used to indicate two or more possible answers with the choice to only select one option.
- Multiple Answers – Check boxes (squares) are used to indicate two or more possible answers with the choice to select one or more options.
- True or False Answers - Radio buttons are used to select only one option.
